New This Year! Administrator Academy #572

Educational Technology – Learning to use Networking Resources on the New Web - Administrator Academy #572 presented by **Dr. Richard Voltz**. The goal of this workshop is to help administrators become 21st century technology leaders for their school districts. Hands-on activities will be used to demonstrate simple and free technologies that can be implemented to help students to develop 21st century skills. The discussions will focus on key questions you should be asking about the integration and use of technology in your district. Dr. Voltz currently serves as the Illinois Association of School Administrators Associate Director.

**In Cooperation with the Area 6 Regional Offices of Education
and the Area 6 North and South Learning Technology Centers**
