This Student-Parent Handbook is presented by the staff of ECHO Alternative school and STARQuest Academy Regional Safe Schools to inform all parents and students of their rights and responsibilities as patrons of the school. This handbook has been adopted by the Regional Office of Education to clarify the procedures followed in the local district and to implement provisions of the School Code of Illinois and the rules and regulations of the State Board of Education. Questions about any of the items included herein may be directed to the building principals or to the Regional Superintendent of Schools.

This handbook is provided to students and their families to acquaint them with the rules, regulations, procedures, and other relevant information necessary for the orderly functioning of the school. It has been structured to help promote student progress as well as the appropriate school government. In addition, this handbook provides for the psychological and physical safety of the students through appropriate rules and regulations.

When breaches of school disciplinary rules and regulations occur, it is the responsibility of involved teachers and administrators to work with the student, his or her parents, and other support personnel to help the student correct his or her behavior. All disciplinary actions shall be directed toward protecting the welfare of the school as well as helping the student develop self-discipline. When determining the response for a specific breach of discipline, school personnel will consider the nature of the act, the student's previous school history, his or her age and maturation, any mitigating circumstances, and the effect that his or her actions might have on the welfare of the school community, the severity of the punishment, and the interest of the child.

The provisions of this handbook are not to be considered as irrevocable contractual commitments between the school and the students. Rather, the provisions reflect the current status of the rules, practices, and procedures, and, as a result, are subject to change.

It is a well-established fact that parents can make a rich contribution to the educational development of their children. All parents are, therefore, urged to help in directing the energies of their children along constructive lines and to assist in the development of good citizens.

Sincerely,
Lorie LeQuatte, Regional Superintendent of Schools

Handbook Disclaimer – This handbook is not intended to create a contractual relationship with the student; rather, it is intended to describe the school, its current practices, procedures, rules, and regulations (or code of conduct). The administrator or lead teacher may establish additional rules, procedures, and regulations not contained within this handbook. Since no handbook or disciplinary code can cover every action that interferes with fellow students or disrupts the educational process, the administration reserves the right to take disciplinary action, when necessary, even though the offense is not specifically referred to in the student handbook. IN ADDITION TO THIS HANDBOOK STUDENTS MUST ADHERE TO SPECIFIC POLICIES FOR THEIR LEARNING SITE. SEE APPENDIX. Students and parents should also be familiar with the handbook for the home district.

Discrimination Policy– All academies and safe schools ensure that equal education opportunities are offered to students without regard to their sex, race, color, national origin, age, religion, or handicap. Inquiries regarding possible discrimination and/or the school's grievance procedure should be directed to: Regional Office of Education #21, 901 Public Square, Benton, IL 62812.

INTRODUCTORY INFORMATION & GENERAL PRACTICES

HOW WE HELP

ROE 21 Alternative and Safe Schools help students who are up against difficult circumstances out of their control. By changing these circumstances—offering safety, encouragement, and structure in a DIFFERENT setting—we can change the ending to each student's story. We start by earning their trust, building relationships, and changing how they look at their lives and think about themselves. We help them take ownership of their responsibilities - academic and behavior toward others. We help them believe in their abilities to turn their lives around to get back on the path to graduation and life readiness.

ECHO Alternative School

The ECHO Alternative School Program has been in existence since 1989 providing educational services for students throughout ROE #21. The program is available to any student residing in Franklin, Johnson, Massac, and Williamson Counties. To participate in the Alternative School program, a student must officially be enrolled in his/her Home School District then be referred by the administration of their Home School. Students who will benefit from the educational structure and environment of ECHO may exhibit some but not all the following characteristics:

- “At-risk” status due to social emotional factors that may affect the student’s ability to attain academic success, such as: frequent mobility, low self-esteem, and various family situations.
- Over age for grade level.
- Students who do not qualify for special educational services but would benefit from an alternative form of educational structure providing an individualized and remedial approach.
- History or current, incompatibility with traditional school that may be indicated through truancy, minor discipline problems, and academic failure.

ECHO is a Trauma Informed School with trained staff and a focus on the whole child:

- A trauma-informed school promotes a safe and welcoming climate
- Seeks to create a structured and predictable learning environment that minimizes unnecessary trauma and loss reminders
- Focuses on building positive and attuned relationships between teachers and students, and among school staff
- Has anti-bullying and suicide prevention programs; and
- Uses a balanced restorative justice (a.k.a. restorative practices) approach to conflict and conflict mediation with appropriate disciplinary action.

Home Schools are responsible for recommending students who exhibit characteristics that lead the Home School personnel to believe the student may be successful at ECHO. Factors that should be considered are ability level, student support, parent support, discipline history, and willingness to participate in credit recovery. It is the goal of the ECHO staff to do what is best for the individual student in cooperation with the student’s Home School. The principal will work with the Home Schools when a student’s success at ECHO may be questionable. Each student will have a Student Success Plan to guide their educational and behavioral goals that include positive outcomes including: reduction in disruptive behavior, regular attendance, coursework completion and credit received for advancement in grade level, return to home school, or high school graduation.

STARQuest Academy Regional Safe School Program (RSSP)***Success Through Acting Responsibly***

STARQuest Academy Regional Safe School (RSSP) serves expulsion-eligible and suspension- eligible students in grades 6-12. The statewide program began serving Illinois students in 1997 as established by 105 ILCS 5/13A of the Illinois School Code providing a system of alternative education programs for disruptive students. Because of the actions of a small number of disruptive students, local school districts face increasing problems in maintaining a safe environment for all students. Expelling or suspending disruptive students puts them on the street, which may increase safety and advance the learning environment inside the school premises but does not serve the educational needs of the expelled or suspended students or the community’s need for public safety.

The purpose of RSSP is twofold:

1. to increase safety and promote the learning environment in schools and
2. to meet the educational needs of disruptive students more appropriately and individually in an alternative educational environment.

The program is designed to meet the educational and personal growth needs of students who have been disruptive to the learning environment or have the potential to be harmful and may pose a threat to themselves or their peers within the school setting. The program is available to any student residing in Franklin, Johnson, Massac, and Williamson Counties. To participate in the STARQuest program, a student must be officially enrolled in his/her Home School District and be referred by the administration of their Home School. Students who will benefit from the educational structure and environment of the STARQuest program may exhibit some but not all of the following characteristics:

- The student has been suspended at least twice for a period of 3-10 days for gross misconduct.
- The student has been arrested by police and/or remanded to juvenile or criminal courts for acts related to school activities.
- The student has been involved in repetitive incidents of misconduct considered to be of a serious nature.
- The student has been expelled from their Home School District for the violation of a school policy.
- Behavior modification training and other counseling, and life skills training are aspects of RSSP. Computerized learning systems may supplement the primary academic instruction or may be used as the primary method of instruction. STARQuest Academy is a Trauma Informed School with trained staff and a focus on the whole child:
- A trauma-informed school promotes a safe and welcoming climate;
- Seeks to create a structured and predictable learning environment that minimizes unnecessary trauma and loss reminders;
- Focuses on building positive and attuned relationships between teachers and students, and among school staff
- Has anti-bullying and suicide prevention programs; and
- Uses a balanced restorative practices approach to conflict and conflict mediation with appropriate disciplinary action.

Home Schools are responsible for recommending students who exhibit characteristics that lead them to believe the student may benefit by enrolling in the STARQuest program. It is the goal of STARQuest to do what is best for the individual student in cooperation with the student's Home School. The Principal will work with the Home Schools when a student's success in the STARQuest Program may be questionable. The RSSP has a set of guidelines, based upon best practices for alternative programs. Each student will have a Student Success Plan to guide their educational and behavior goals that include positive outcomes including reduction in disruptive behavior, regular attendance, coursework completion and credit received advancement in grade level, or return to home school.

SCHOOL ADMISSIONS & STUDENT TRANSFERS

Admission Procedure

All students must register for school each year at their home school district. Parents/guardians of students enrolling in ECHO must present:

- A Student Success Plan will be developed with the student and staff and shared with parents/guardians.

A student may transfer into or out of ECHO according to State law and procedures developed by ROE #21. A student seeking to transfer into ECHO or STARQuest Academy must serve the entire term of any suspension or expulsion, imposed for any reason by any public or private school, in this or any other state, before being admitted into ECHO or STARQuest Academy unless an exception is provided by law. Students enrolling at ECHO for disciplinary reasons will be reviewed upon a case-by-case basis. Students must follow the guidelines set forth by ECHO/STARQuest administration for enrollment.

VIDEO & AUDIO MONITORING SYSTEMS

A video and/or audio monitoring system may be in use on school buses and a video monitoring system may be in use in public areas of the school building. These systems have been put in place to protect students, staff, visitors and school property. STUDENTS WITH FOOD ALLERGIES

State law requires our school district to annually inform parents of students with life-threatening allergies or life-threatening chronic illnesses of the applicable provisions of Section 504 of the Rehabilitation Act of 1973 and other applicable federal statutes, state statutes, federal regulations and state rules. If your student has a life-threatening allergy or life-threatening chronic illness, please notify the building principal at (000) 000-0000. Federal law protects students from discrimination due to a disability that substantially limits a major life activity. If your student has a qualifying disability, an individualized Section 504 Plan will be developed and implemented to provide the needed support so that your student can access his or her education as effectively as students without disabilities.

Not all students with life-threatening allergies and life-threatening chronic illnesses may be eligible under Section 504. Our school district also may be able to appropriately meet a student's needs through other means.

SUICIDE AND DEPRESSION AWARENESS AND PREVENTION

Youth suicide impacts the safety of the school environment. It also affects the school community, diminishing the ability of surviving students to learn and the school's ability to educate. Suicide and depression awareness and prevention are important goals of the school district. The school district maintains student and parent resources on suicide and depression awareness and prevention. Much of this information, including a copy of the school district's policy, is posted on the school district website. Information can also be obtained from the school office.

EMPLOYEE CONDUCT STANDARD

School districts are required to include in their student handbook the District's Employee Code of Professional Conduct. These standards, in part, define appropriate conduct between school employees and students. PREVENTION OF ANAPHYLAXIS

While it is not possible for the School or District to completely eliminate the risks of an anaphylactic emergency, the District maintains a comprehensive policy on anaphylaxis prevention, response, and management in order to reduce these risks and provide accommodations and proper treatment for anaphylactic reactions. ATTENDANCE, PROMOTION, AND GRADUATION

Attendance

ECHO is an alternative placement for many students with truancy issues. We strive to provide an alternative educational environment that offers students an opportunity to gain credit and improve attendance. The official school day for all students is from 8:00 am – 2:00 pm Monday through Friday. A school calendar will be provided at the time of registration.

Illinois law requires that whoever has custody or control of any child between six (by September 1st) and seventeen years of age shall assure that the child attends school in the district in which he or she resides, during the entire time school is in session (unless the child has already graduated from high school). Illinois law also requires that whoever has custody or control of a child who is enrolled in the school, regardless of the child's age, shall assure that the child attends school during the entire time school is in session.

The policy of ECHO/STARQuest shall be to promote regular attendance by all students who are enrolled. The State of Illinois considers a student attending school less than 95% of the time to be truant. A successful ECHO / STARQuest student will attend classes regularly and on time. Attendance interventions will be put in place to assist students in maintaining a healthy discipline of attending school. Students with excessive absences will be referred to the Partners Against Chronic Truancy Program. If truancy continues the student may be returned to their home school district.

There are two types of absences: excused and unexcused. Excused absences include: illness (including mental or behavioral health of the student), observance of a religious holiday or event, death in the immediate family, family emergency, situations beyond the control of the student, circumstances that cause reasonable concern to the parent/guardian for the student's mental, emotional, or physical health or safety, attending a military honors funeral to sound TAPS , or other reason as approved by the building principal.

Additionally, a student will be excused for up to 5 days in cases where the student's parent/guardian is an active-duty member of the uniformed services and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat-support postings. The ROE #21, in its discretion, may excuse a student for additional days relative to such leave or deployment. A student and the student's parent/guardian are responsible for obtaining assignments from the student's teachers prior to any excused absences and for ensuring that such assignments are completed by the student prior to his or her return to school.

Students who are excused from school will be given a reasonable timeframe to make up missed homework and classwork assignments.

All other absences are considered unexcused. Pre-arranged excused absences must be approved by the building principal.

*Pursuant to Public Act 102-981 (effective 1-1-23), school boards must allow "public middle school and high school" students one day-long excused absence per school year for the purpose of attending a civic event.

ECHO and STARQuest Academy require documentation explaining the reason for the student's absence. Excessive absences will require a meeting with administration and may result in the student being removed from the program.

Attendance Letters

Parents will be notified in writing when their child has been absent for three (3) days, five (days), and then again if they reach nine (9) days regardless of whether the absences are classified excused or unexcused. This is an effort to raise awareness of the number of absences for the year.

STUDENT ABSENCES

Procedures for Reporting Absences

If a student is absent from school for any reason or cause, it is important that the following procedures be followed:

- A phone call from a parent/guardian is required each day a student is absent. Calls must be made to 618-983-6628 between 8:00a.m. - 10:00a.m. The school must be notified of all absences DAILY. If the call is not received, the school will attempt to contact the parent/guardian. If contact is not made, a written OFFICIAL NOTE must be presented when the student returns to school.
- Upon returning to school following an absence, the student will report to the office for an admission slip before reporting to first period class.
- No student is to leave school during the day without prior permission from the attendance officer or Principal's office. In case of illness at school, the student must contact school office personnel so that necessary calls can be made to his/her family.
- Medical appointments should be made either before or after school or on days that school is not in session. Medical appointments that will involve school time must be presented to the office between 8:00 a.m. and 8:30 a.m. within 5 days of the absence. All ECHO and STARQuest students must use the provided Medical Excuse Form which will be provided at the time of registration and can be found on the school's website.
- Students should not request to be dismissed from class to take care of personal business that may be taken care of either before or after school or on days that school is not in session.

A student who misses 15 consecutive days of school without valid cause and who cannot be located or, after exhausting all available support services, cannot be compelled to return to school is subject to expulsion from school.

A parent or guardian who knowingly and willfully permits a child to be truant is in violation of State law.

Release of Students during School Hours

The official school day for all students is established in the handbook. Students may not leave school for any reason, except family emergencies. A request to be dismissed early must be confirmed through a parent/guardian phone call indicating the time and reason.

For the protection of the student, parents/guardians who need to pick up students during the school day should do the following:

- Call the building and state the reason for early release.
- Give the time the student is to be picked up.
- Tell who will pick up the student since students will be released only to their parents or to a person that their parents designate.
- If a court order limits parental custody of the child, copies of the order must be on file in the school office.
- If the student is to be released to a person other than parents, the person should be prepared to provide identification if not known to the school.
- The person picking up the student should report to the office. The student will then be summoned from the classroom.

*FAILURE TO FOLLOW THE PROPER PROCEDURE WILL BE CONSIDERED AN UNEXCUSED ABSENCE AND THE STUDENT COULD BE CONSIDERED **TRUANT**.*

Leaving school grounds without administrative approval will be considered a suspendable offense and the police will be called.

TRUANCY

Student attendance is critical to the learning process. Truancy is therefore a serious issue and will be dealt with in a serious manner by the school.

Students who miss more than 1 % but less than 5% of the prior 180 regular school days without valid cause (a recognized excuse) are truant. Students who miss 5% or more of the prior 180 regular school days without valid cause are chronic truants. Students who are chronic truants will be offered support services and resources aimed at correcting the truancy issue. A student is considered truant when he/she is absent 5% of 180 school days. Administration will report absences to the Truancy Interventionists of Franklin-Johnson-Massac-Williamson Counties.

If chronic truancy persists after support services and other resources are made available, the school and district will take further action, including:

- Referral to the Partners Against Chronic Truancy Program
- Reporting to officials under the Juvenile Court Act
- Referral to the State's Attorney
- Appropriate school discipline and/or return to Home School District

Tardiness

Students arriving late disrupt the entire classroom. Excessive tardiness will require a meeting with administration and may result in the student being removed from the program.

Release Time for Religious Instruction/Observance

A student will be released from school, as an excused absence, to observe a religious holiday or for religious instruction. The student's parent/guardian must give written notice to the building principal at least 5 calendar days before the student's anticipated absence(s). Students excused for religious reasons will be given an opportunity to make up any examination, study, or work requirement.

ACADEMIC REQUIREMENTS

Report Cards, Grades, and Grading System

Grades are an evaluation of what has been learned and may include the following assessments: academic performance, class participation, and presence in class.

Reporting of Grades and Promotion

Grades are recorded as the students complete assigned courses. Report cards are issued to students at the conclusion of each semester. Report cards will be mailed home to parents/guardians with a copy of the report sent to the student's home school.

The decision to promote a student to the next grade level is based on successful completion of the curriculum, attendance, performance on standardized tests and other testing. A student will not be promoted based upon age or any other social reason not related to academic performance.

ECHO is approved by the Illinois State Board of Education to issue a high school diploma. To earn a diploma from ECHO students must complete 24 credits. Classification of grade level for students in grade 9-12 is as follows:

- 6 credits completed = Sophomore
- 12 credits completed = Junior
- 18 credits completed = Senior
- Once 24 credits are completed, the student will graduate

ECHO hosts a graduation ceremony annually in May. We provide cap/gown and a high school diploma certificate.

Progress Reports

Progress reports may be sent home at the end of each month. Parents are encouraged to contact the teachers for more information if needed or follow their student's progress on our student information website: www.schoolinsight.com/parent

Grading System

The letters A to F are used in all subjects and indicate the kind of work the student is doing based upon standards established for his/her grade or class. To find the scholastic average, the following points are assigned to each letter grade:

A	4.00	(90-100)
B	3.00	(80-89)
C	2.00	(70-79)
D	1.00	(60-69)

Parental Involvement

Everyone is responsible for the success of the students at the school. While the school provides the best education we can, it is critical to the success of the students that parents assist us in meeting the goals of the education set forth by the state, the federal government and ourselves. Communication between home and school helps bind the students, parents, teachers, and administration into a partnership working toward a common goal of helping the student succeed. Every parent is required to attend an annual orientation meeting prior to enrollment. Student Led Conferences will be offered once per semester to allow the people most directly involved with the student to become an active participant in the educational process. The administration may require parent/guardian meetings throughout the school year to help foster students' success. Parents/guardians are strongly encouraged to contact the school to schedule a conference whenever there is a question or concern.

The state's resources on parental involvement can be located at <http://illinoisparents.org/>. The state's website on parental involvement provides information, training, and support for parents and schools on various websites which may be useful or interesting to parents and students and provides advice and information about how to get involved and participate in the educational process.

Complaints About Curriculum, Instructional Materials, and Programs

Parents or guardians have the right to inspect all instructional materials used as a part of their child's education. If you believe that curriculum, instructional materials, or programs violate rights guaranteed by any law or Board policy, you may file a complaint under the District's uniform grievance policy.

Parents or guardians with other suggestions or complaints about curriculum, instructional materials, or programs should complete a Curriculum Objection Form, which is available from the school office. A parent or guardian may also request that their child be exempt from using a particular instructional material or program by completing a Curriculum Objection Form.¹

STUDENT FEE AND MEAL COSTS

Fines, Fees, and Charges; Waiver of Student Fees

The school establishes fees and charges to fund certain school activities. Some students may be unable to pay these fees. Students will not be denied educational services or academic credit due to the inability of their parent or guardian to pay fees or certain charges. Students whose parent or guardian is unable to afford student fees may receive a fee waiver. A fee waiver does not exempt a student from charges for lost and damaged books, locks, materials, supplies, and/or equipment.

Applications for fee waivers may be submitted by a parent or guardian of a student who has been assessed a fee. As student is eligible for a fee waiver if at least one of the following prerequisites is met:

- The student currently lives in a household that meets the free lunch or breakfast eligibility guidelines established by the federal government pursuant to the National School Lunch Act; or
- The student or the student's family is currently receiving aid under Article IV of the Illinois Public Aid Code (Aid to Families of Dependent Children).

- The building principal will give additional consideration where one or more of the following factors are present:
 - An illness in the family;
 - Unusual expenses such as fire, flood, storm damage, etc.;
 - Unemployment;
 - Emergency situations; or
 - When one or more of the parents/guardians are involved in a work stoppage.

The building principal will notify the parent/guardian promptly as to whether the fee waiver request has been granted or denied. Questions regarding the fee waiver application process should be addressed to the building principal.

Pursuant to the Hunger-Free Student's Bill of Rights Act, the school is required to provide a federally reimbursable meal or snack to a student who requests one, regardless of whether the student has the ability to pay for the meal or snack or owes money for earlier meals or snacks. Students may not be provided with an alternative meal or snack and the school is prohibited from publicly identifying or stigmatizing a student who cannot pay for or owes money for a meal or snack.

Fees

ECHO does not charge a book or computer rental fee but may require a deposit refundable upon return of books and/or computers. Students are responsible for the proper care of all property and failure to take proper care of said property will result in the pupil having to pay the entire replacement cost of the book/computer.

All books (whether hardback or consumable) and technology remain the property of the ROE and may be collected at any time. If a student loses or destroys a book or technology, it will be the responsibility of the student or parent to pay for the replacement.

All outstanding fees must be paid to the school office at a time designated by appropriate school officials.

WELLNESS POLICY IMPLEMENTATION, MONITORING, ACCOUNTABILITY AND COMMUNITY ENGAGEMENT

Implementation Plan

ECHO & STAR Quest Academy schools will develop and maintain an implementation plan for implementing this LWP. This plan will delineate the roles, responsibilities, actions and timelines specific to the school; and include information about who will be responsible to making what change, by how much, where and when; as well as specific goals and objectives for nutrition standards for all foods and beverages available on the school campus, food and beverage marketing, nutrition promotion and education, physical activity, physical education and other school-based activities that promote student wellness.

ECHO & STAR Quest Academy will use a variety of tools (see list below) to complete school-level assessments of implementation of this plan; based on the results; ECHO & STAR Quest Academy will create an action plan, implement the plan, and generate an annual report. ECHO & STAR Quest Academy will retain records to document compliance with the requirements of this LWP at the ECHO's & STAR Quest Academy's main office and with the Office of the State Superintendent of Education.

Documentation maintained in these locations will include but is not be limited to:

- this written LWP;
- documentation demonstrating that the policy has been made available to the public;
- documentation of efforts to review and update the LWP; including an indication of who is involved in the update and methods the LEA uses to make stakeholders aware of their ability to participate on the Local Wellness Committee;
- documentation to demonstrate compliance with the annual public notification requirements;
- the most recent assessment on the implementation of the LWP; and
- assessment documents will be made available to the public.

ECHO & STAR Quest Academy will actively inform families and the public each year of basic information about this policy, including its content, any updates to the policy and implementation status. The school will make this information available via the school website <http://roe21.org> and through school-wide communications. This will include a summary of the school's events or activities related to wellness policy implementation. Annually, the schools also will publicize the name and contact information of the school officials leading and coordinating the Local Wellness Committee, as well as information on how the public can get involved with the Committee.

Triennial Progress Assessments

At least once every three years, ECHO & STAR Quest Academy will conduct a Triennial Progress Assessment and develop a report that reviews each schools' compliance with this LWP. This assessment

and report will include a full description of the progress made in attaining the goals of ECHO & STAR Quest Academy's LWP.

The persons responsible for managing the triennial assessment and report are: Cortney Hale, Principal/School Wellness Policy Coordinator (chale@roe21.org) and Deanna Morris, Director of Student Services/School Wellness Policy Coordinator (dmorris@roe21.org).

The above referenced individual will monitor ECHO & STAR Quest Academy schools' compliance with this LWP and develop the triennial progress reports by utilizing, among other tools, the annual LEA self-evaluations described in the above section. ECHO & STAR Quest Academy schools will actively notify households/families of the availability of the triennial progress report.

Establishing a Plan to Measure the Impact and Implementation of the Local Wellness Policy

ECHO & STAR Quest Academy will evaluate compliance and effectiveness of this LWP using existing data collection tools, such as, but not limited to:

- IL Healthy Schools Act School Health Profiles;
- Centers for Disease Control and Prevention School Health Profiles;
- USDA triennial administrative review.

Revisions and Updating the Local Wellness Policy

This LWP will be assessed and updated at least every three years, following the triennial assessment discussed above. The Local Wellness Committee will update or modify this LWP based on the results of ECHO & STAR Quest Academy's annual self-assessment, the USDA triennial administrative review, and on other variables, including if/when ECHO & STAR Quest Academy's health priorities change; the community's health needs change; the wellness goals are met; new health science arises, new technology emerges; and new federal or state guidance/standards are issued.

Community Involvement, Outreach and Communications

ECHO & STAR Quest Academy are committed to being responsive to community input, which begins with awareness of the LWP. Schools will actively communicate ways in which representatives of the Local Wellness Committee and others can participate in the development, implementation and periodic review and update of the LWP through a variety of means appropriate for ECHO & STAR Quest Academy. Schools also will inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards. Schools will actively notify the public about the content of or any updates to this LWP annually, at a minimum. ECHO & STAR Quest Academy will also use these mechanisms to inform the community about the availability of the annual and triennial reports. Additionally, ECHO & STAR Quest Academy will disseminate this LWP to parents through posting it in the school office, on the school website, and through any parent-teacher organizations.

The components of ECHO & STAR Quest Academy's physical education program may include a variety of kinesthetic activities.

Students shall be given opportunities for physical activity through a range of programs. ECHO & STAR Quest Academy will ensure that:

- students in grades 6-8 receive at least 225 minutes per week of physical education;

FOOD RECOVERY AND UNUSED FOOD SHARING PLAN

Standard Operating Procedures

Share Table SOPs:

- All share tables are supervised by a member of the food service staff under the direction of Julie Hilliard (Secretary/Breakfast & Lunch Aide) to ensure that no food or beverage has been contaminated (e.g. opened, partially consumed, etc.) and the original packaging is maintained in sound condition.
- The share tables are placed at the end of a serving line or POS, rather than further out in the cafeteria or eating area. This aids in the supervision of the share table by food service staff, ensuring that food contamination is reduced or eliminated.
- Only foods that are whole, uneaten, unpeeled, or unopened are allowed on the share tables.
- Once students receive a complete meal and decide to not eat one of the aforementioned items, they may place it on one of the share tables.
- Any student can take any food item from the share table, and s/he may come back to the share table as frequently as desired.
- Signage is displayed to ensure students understand which food items can be placed on the share table, and that these are optional items that can be taken in addition to the regular meal.
- Food-safe receptacles are placed on the share table during meal service for students to place their uneaten food items into. The share table and receptacles are clearly marked to designate them as being for food recovery items only.
- All food items are kept at the proper temperature. Time and temperature is monitored and recorded per the Food Recovery HACCP plan.

TRANSPORTATION AND PARKING

Bus Transportation

Bus transportation is provided at the discretion of the district. A list of bus stops will be published at the beginning of the school year. Parents must, at the beginning of the school year, select one bus stop at which a student is to be picked up, and one stop at which a student is to be dropped off. Students are not permitted to ride a bus other than the bus to which they are assigned. Exceptions must be approved in advance by the building principal.

While students are on the bus, they are under the supervision of the bus driver. In most cases, bus discipline problems can be handled by the bus driver. In the case of a written disciplinary referral, student bus problems will be investigated and handled by the building principal.

Students are expected to follow all school rules while on the bus. Students may be suspended from riding the school bus for up to 10 consecutive school days for violating school rules or for engaging in other gross disobedience or misconduct. The district's regular suspension procedures shall be used to suspend a student's privilege to ride a school bus.

A student who is suspended from riding the school bus and who does not have alternative transportation to school shall be allowed the opportunity to make up all missed work for equivalent academic credit. It is the responsibility of the student's parent or guardian to notify the school that the student does not have alternative transportation to school; however, the bus suspension does not excuse them from school. Students may also lose the privilege of bus transportation.

Video and audio cameras may be active on buses to record student conduct and may be used for the purposes of investigation into misconduct or accidents on the bus. In the interest of the student's safety and in compliance with State law, students are also expected to abide by the following:

1. Be aware of moving traffic and pay attention to your surroundings.
2. Dress properly for the weather. Make sure all drawstrings, ties, straps, etc. on all clothing, backpacks and other items, are shortened or removed to lessen the likelihood of them getting caught in bus doors, railings or aisles.
3. Arrive on time at the bus stop and stay away from the street while waiting for the bus.
4. Stay away from the bus until it stops completely and the driver signals you to board. Enter in single file without pushing. Always use the handrail.
5. Take a seat right away and remain seated facing forward. Keep your hands, arms, and head inside the bus.
6. Talk quietly on the bus. No shouting or creating loud noises that may distract the driver. Tablets, computers, smart phones, smart watches, and other electronic devices must be silenced on the bus unless a student uses headphones.
7. Help keep the bus neat and clean. Keep belongings out of the aisle and away from emergency exits. Eating and drinking are not allowed on the bus.
8. Always listen to the driver's instructions. Be courteous to the driver and other students. Sit with your hands to yourself and avoid making noises that would distract the driver or bother other passengers.
9. Wait until the bus pulls to a complete stop before standing up. Use the handrail when exiting the bus.
10. Stay out of the danger zone next to the bus where the driver may have difficulty seeing you. Take at least five giant steps (10 feet) away from the bus and out of the danger zone, until you can see the driver and the driver sees you. Never crawl under a bus.
11. If you must cross the street after you get off the bus, wait for the driver's signal and then cross in front of the bus. Cross the street only after checking both ways for traffic, even after the driver's signal.
12. Never run back to the bus, even if you dropped or forgot something.

STUDENT VEHICLES AND PARKING

A Copy of Driver's license and proof of insurance is required

Students must realize that driving a car to school is a privilege not a right. Students will not be allowed to sit in their vehicles and visit after parking on the school lot. This applies before school and during the lunch period. Students are not to be in any vehicle during the school day without office approval.

Students may park their vehicles in the lot designated between the hours of 7:30 am and 2:30 pm. Vehicles must be parked appropriately, should be driven safely, and must yield to pedestrians. Students caught driving recklessly in the parking lot may be subject to disciplinary action.

Students will not be permitted to go to their vehicles after they arrive at school. The parking lot and all vehicles will be off limits to any student during school hours.

The school is not responsible for student vehicles, any possessions left in them, or anything attached to the vehicles. **STUDENTS PARK THEIR VEHICLES ON OR NEAR SCHOOL PROPERTY AT THEIR OWN RISK.** Students should be aware their vehicles are not protected in any way while in the parking lot, and items of value should not be left in or near the vehicle while unattended.

Students have no reasonable expectation of privacy in cars parked on school grounds. School lots are regularly searched by contraband dogs, administration, and police officers. Students should be aware that items and spaces on school grounds are subject to search and view by others, and that prohibited items discovered during the course of a search may result in discipline, including, but not limited to, expulsion from school.

Video cameras may be active in parking lots and may be used for the purposes of investigation into student misconduct. Discipline for misconduct includes all disciplinary measures in the student discipline code and/or withdrawal of parking privileges.

School policy on driving to school: **DRIVE IT, PARK IT, LEAVE IT.** Violation of school driving regulations will result in disciplinary action being taken. Violation of driving suspension will result in additional sanctions and the possibility of having one's car towed at owner's expense. Students who allow or use their vehicle(s) to assist others in breaking school regulations are subject to disciplinary actions. Students shall provide all required information listing model/make/color and license plate number of cars they drive to school, current insurance, and driver's license.

CLOSED CAMPUS POLICY

ECHO is a closed campus. Once students have arrived on campus, they may not leave campus until the end of their scheduled school day without the permission of a designated school official. Only those visitors who have legitimate school business are allowed on campus during the school day, and all visitors and guests must register in the school office immediately upon entering campus. Parents are welcome to visit the school as appropriate, but they are required to register in the office. Students are not permitted to have visitors or bring younger children or babies on campus during the school day except as arranged as part of the instructional process as cleared by the school administration. Loitering will not be permitted in the building or on the campus.

HEALTH AND SAFETY

Physicals and Immunizations

In compliance with the school code of Illinois, an Illinois medical examination by a physician shall be required of each student prior to enrollment and attendance at ECHO/STARQuest. A record of such examination from another school system will be accepted. Students will not be allowed to attend school until a report of such examinations is presented. The examination shall verify that the child has been immunized against the diseases required by law before entrance into school.

Immunization, Health, Eye and Dental Examinations

The Homeschool is the custodian of the required examinations and will confirm through the referral process.

Required Health Examinations and Immunizations

All students are required to present appropriate proof of a health examination and the immunizations against, and screenings for, preventable communicable diseases within one year prior to.

- Proof of immunization against meningococcal disease is required for students in grades 6 and 12. A diabetes screening must be included as part of the health exam (though diabetes testing is not required).

Beginning with the 2017-2018 school year, an age-appropriate developmental screening and an age-appropriate social and emotional screening are required parts of each health examination.

Failure to comply with the above requirements by October 15 of the current school year will result in the student's exclusion from school until the required health forms are presented to the school, subject to certain exceptions. A student will not be excluded from school due to his or her parent/guardian's failure to obtain a developmental screening or a social and emotional screening.

New students who register mid-term have 30 days following registration to comply with the health examination and immunization requirements. If a medical reason prevents a student from receiving a required immunization by October 15, the student must present, by October 15, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by an appropriate medical professional.

Eye Examination

All students entering kindergarten or the school for the first time must present proof by October 15 of the current school year of an eye examination performed within one year. Failure to present proof by October 15, allows the school to hold the student's report card until the student presents: (1) proof of a completed eye examination, or (2) that an eye examination will take place within 60 days after October 15.

Dental Examination

All students entering kindergarten, second, sixth and ninth grades must present proof by May 15 of the current school year of having been examined by a licensed dentist within the last 18 months. If a student shows such symptoms while at school, the student will be sent home. Parents will be notified to make arrangements to have the student picked up at school. If the parents/guardian cannot be reached, the person designated on the emergency card will be called. It is essential that parents list people on the emergency card who will be able to pick up the student if parents are unavailable.

Making an explicit threat on an Internet website against a school employee, a student, or any school-related personnel if the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.
31. Operating an unarmed aircraft system (AUS) or drone for any purpose on school grounds or at any school event unless granted permission by the building principal.

For purposes of these rules, the term "possession" includes having control, custody, or care, currently or in the past, of an object or substance, including situations in which the item is: (a) on the student's person; (b) contained in another item belonging to, or under the control of, the student, such as in the student's clothing, backpack, or automobile; (c) in a school's student locker, desk, or other school property; (d) at any location on school property or at a school-sponsored event; or (e) in the case of drugs and alcohol, substances ingested by the person.

Efforts, including the use of positive interventions and supports shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or psychological harm to someone else.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

ACCESS TO STUDENT SOCIAL NETWORKING PASSWORDS & WEBSITES

School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

WHEN AND WHERE CONDUCT RULES APPLY

The grounds for disciplinary action also apply whenever the student's conduct is reasonably related to school or school activities, including but not limited to:

- On, or within sight of, school grounds before, during, or after school hours or at any time;
- Off school grounds at a school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school;
- Traveling to or from school or a school activity, function, or event; or
- Anywhere, if the conduct interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property, or
- During periods of remote learning.

DISCIPLINARY MEASURES

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall

not advise or encourage students to drop out of school voluntarily due to behavioral or academic difficulties. Potential disciplinary measures include, without limitation, any of the following measures:

- Notifying parents/guardians.
- Disciplinary conference.
- Withholding of privileges.
- Temporary removal from the classroom.
- Return of property or restitution for lost, stolen or damaged property.
- Alternative Classroom (ACR)
- Seizure of contraband; confiscation and temporary retention of the personal property that was used to violate school rules.
- Suspension of bus riding privileges.
- Suspension from school and all school activities for up to 10 days. A suspended student is prohibited from being on school grounds.
- Expulsion from school and all school activities for a definite time period not to exceed 2 calendar years. An expelled student is prohibited from being on school grounds.
- Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, such as, illegal drugs (controlled substances), “look-alikes,” alcohol or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension or expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

Isolated Time Out, Time Out and Physical Restraint

Isolated time out, time out, and physical restraint shall only be used if the student’s behavior presents an imminent danger of serious physical harm to the student or others and other less restrictive and intrusive measures were tried and proven ineffective in stopping it. The school may not use isolated time out, time out, and physical restraint as discipline or punishment, convenience for staff, retaliation, a substitute for appropriate educational or behavioral support, a routine safety matter, or to prevent property damage in the absence of imminent danger of serious physical harm to the student or others.

Corporal Punishment

Corporal punishment is illegal and will not be used. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

Weapons Prohibition

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year but not more than 2 calendar years:

- A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to

school shall be expelled for a period of not less than one year but not more than 2 calendar years:

- A firearm, meaning any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 of the Criminal Code of 1961. The expulsion period may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.
- A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alike" of any firearm as defined above.
- The expulsion requirement may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

Gang & Gang Activity Prohibited

"Gang" is defined as any group, club or organization of two or more persons whose purposes include the commission of illegal acts. No student on or about school property or at any school activity or whenever the student's conduct is reasonably related to a school activity, shall: (1) wear, possess, use, distribute, display, or sell any clothing, jewelry, paraphernalia or other items which reasonably could be regarded as gang symbols; commit any act or omission, or use either verbal or non-verbal gestures, or handshakes showing membership or affiliation in a gang; or (2) use any speech or commit any act or omission in furtherance of the interest of any gang or gang activity, including, but not limited to, soliciting others for membership in any gangs; (3) request any person to pay protection or otherwise intimidate, harass or threaten any person; (4) commit any other illegal act or other violation of district policies, (5) or incite other students to act with physical violence upon any other person.

ALTERNATIVE CLASSROOM (ACR) POLICY

ACR is a restorative behavior intervention program designed to improve the behavior of truant, chronically tardy, or misbehaving students. If the student's behavior does not improve, the only remaining recourse of the school administration is out-of-school suspension, return to home school, and, as a last resort, expulsion from school.

The program is designed to be both punitive and restorative in nature. The student will be assigned class work while in ACR. The physical structure of ACR will be a room equipped with individual study areas. Partitions are arranged in such a way that there is little or no interaction among students assigned to ACR. Students in ACR have access to the ACR teacher only and not other students in the room. The major objectives are to improve the attitude and behavior of the students by: Providing close supervision, removing the student from the school population and participating in restorative practices with the goal to improve behavior.

Rules governing ACR will be presented to students during the first week of school. The basic rules include the following:

- Students assigned to ACR will report at 8:00 a.m. and remain until 2 p.m. (unless otherwise determined by school administration).
- Students assigned to ACR will eat lunch in ACR.

- Students assigned to ACR will be given restroom breaks and will be escorted to the facilities by the ACR instructor.
- Restorative lessons will be a part of the discipline.
- School Social Worker may be used as support personnel and goal planning.
- The Administration agent will make the referral and assignment to the ACR. Any ACR assignment will not exceed a period of ten (10) consecutive days. Students are required to turn in all work assigned and will receive credit for all work completed while in ACR.

The purpose of the Alternative Classroom is to serve the needs of the students, faculty, administrators, and parents by providing a meaningful alternative to out-of-school suspension. ACR is viewed as a last step prior to a student's suspension out of school. Students are expected to study during ACR and gain credit for work completed. Students must follow the directions of the ACR instructor, and all the rules established by the administration. Failure to comply with these guidelines may result in immediate out-of-school suspension and possible return to home school.

REMOVAL FROM CLASS AND SCHOOL ACTIVITIES

Teachers and administrators may remove students temporarily from classrooms and school activities for violation of the disciplinary code and the student will be dealt with according to the seriousness of the offense. It is recommended that teachers attempt to solve the disciplinary problems that arise in their classes, but if a student fails to respond or to cooperate and thus becomes detrimental to the well-being of the rest of the class, the student(s) will be referred to administrative personnel. An attempt will be made by the administration to work with the parents or guardians in resolving the problems which the students encounter. If this fails to bring about the desired results, the student will be removed from the class, suspended, placed on probation, or expelled, as Section 10-22.6 of The School Code of Illinois provides.

SUSPENSION

Suspension is a period of time when the student is not allowed to attend school. Suspension is for a definite period of time with the student permitted to return to school before the end of the academic year. Suspension can be for the remainder of the school day or for a period of days ranging from 1 to 10 days. Suspension from school forbids participation in and presence at all school activities during the suspension period.

Suspension Procedures

The following are suspension procedures:

- Before suspension, the student shall be provided a conference during which the charges will be explained, and the student will be given an opportunity to respond to the charges.
- A pre-suspension conference is not required, and the student can be immediately suspended when the student's presence poses a continuing danger to persons or property or an ongoing threat of disruption to the educational process. In such cases, the notice and conference shall follow as soon as practicable.
- Any suspension shall be reported immediately to the student's parent(s)/guardian(s). A written notice of the suspension shall state the reasons for the suspension, including any school rule

which was violated, and a notice to the parent(s)/guardian(s) of their right to a review of the suspension. A copy of notice shall be given to the Regional Superintendent of Schools.

- Upon request of the parent(s)/guardian(s), a review of the suspension shall be conducted by the Regional Superintendent of Schools or designee or a hearing officer appointed by the Superintendent. At the review, the student's parent(s)/guardian(s) may appear and discuss the suspension with the Regional Superintendent or hearing officer and may be represented by counsel. After presentation of the evidence or receipt of the hearing officer's report, the Regional Superintendent shall take such action as he finds appropriate.

RE-ENGAGEMENT OF RETURNING STUDENTS

The building administration and school social worker shall meet with a student and parent/guardian returning to school from an out-of-school suspension. The goal of this meeting shall be to support the student's ability to be successful in school following a period of exclusion and shall include an opportunity for students who have been suspended to complete or make-up missed work for equivalent academic credit.

EXPULSION

Expulsion is the prohibition of a student from attending school during a semester or a school year. Expulsion is the most severe penalty which can be imposed on a student. Expulsion hearings will be held by the Home School District and will follow their expulsion procedures which can be found in their student handbook.

DELEGATION OF AUTHORITY

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment or in-school suspension, which is appropriate and in accordance with the policies and rules on student discipline. Teachers, other certified educational employees and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers may remove students from a classroom for disruptive behavior.

The Building Principal, or Assistant Building Principal, is authorized to impose the same disciplinary measures as teachers and may suspend students guilty of gross disobedience or misconduct from school (including all school functions) and from riding the school bus, up to 10 consecutive school days, provided the appropriate procedures are followed.

CRIMINAL CODE AND JUVENILE COURT ACT

The Criminal Code and the Juvenile Court Act specifically address crimes related to the problems of gangs and criminal activity in and around our schools. P.A. 84-1075, effective 12/02/85, amended the Criminal Code and made it a crime for anyone 18 years or older to express or to imply a threat to do bodily harm to a person under 18 years of age or to use any other unlawful means to solicit or to cause

any person under 18 years of age to join any organization or association (Ill. Rev. Stats. 1985 Ch. 38, Sect. 12-6.1).

The Act provides stricter criminal penalties for conviction of unlawful possession of drugs in any school, on school property, or on any public way within 1,000 feet of school property (Ill. Rev. Stats. 1985 Ch. 37, Sects. 702-7[b][a] and 7[a]-[c]).

P.A. 84-721, effective 01/01/86, amended the Criminal Code to create a new subsection making it a crime of unlawful use of a weapon to carry or possess certain weapons, additional to those enumerated in P.A. 84-1075, on school grounds. This crime also carries stricter penalties for violation of the section (Ill. Rev. Stats. 1985 Ch. 38, Sect. 24-1[a][12]).

Contact local law enforcement authorities or the State's Attorney's office for more specific information.

It is the responsibility of all students to ensure the safety of all those attending ECHO. Students are encouraged to disclose any information to faculty members or to the principal regarding weapons and/or potentially dangerous situations.

RECIPROCAL INFORMATION SHARING AGREEMENT

In accordance with Public Act 88-376, effective January 1, 1994, ECHO / STARQuest and local law enforcement agencies have agreed to establish and maintain a reciprocal reporting system regarding criminal offenses committed by students.

The purpose of sharing information among the schools and agencies having contact with these students or the families of these students is to better coordinate efforts to address and resolve the problems experienced by these students or their families.

This agreement provides that information may be shared among ECHO / STARQuest and local law enforcement agencies when any of the agencies reasonably believe that another of the agencies may have information regarding the commission of a criminal offense by a student attending ECHO/ STARQuest.

LAW ENFORCEMENT AND OFFICIALS

The principal shall cooperate with law enforcement officials in the following ways:

- If the law enforcement official has a warrant for the arrest of a student, the school official shall:
 - honor the warrant,
 - make an attempt to contact the parent/guardian and inform him or her of the arrest.
- If the law enforcement official has no warrant but wishes to talk to the student, a school official shall be present at all times.

Targeted School Violence Prevention Program

Threats and acts of targeted school violence harm the District's environment and school community, diminishing students' ability to learn and a school's ability to educate. Providing students and staff with access to a safe and secure environment is an important goal of the School and District. While it is not possible to completely eliminate threats, the School and District maintain a Targeted School Violence Prevention Program and a Threat Assessment Team to reduce these risks to its environment.

Parents/guardians and students are encouraged to report any expressed threats or behaviors that may represent a threat to the community, School, or self. Reports can be made to any school administrator, law enforcement authorities, or the Safe2Help Illinois helpline (www.safe2helpil.com/).

Students and parents are urged to participate in behavioral threat assessment and intervention programs if the Behavioral Threat Assessment Team believes that intervention is necessary to prevent a student from harming themselves or others. However, if for some reason there is a reluctance to participate in the process by the threat maker(s) or parent/guardian(s), the threat assessment process will continue in order to ensure a safe and caring learning environment for all.

For further information, please contact the Building Principal.

PREVENTION OF AND RESPONSE TO BULLYING, INTIMIDATION, AND HARASSMENT

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important district and school goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge from military service, sex, sexual orientation, gender orientation, gender-related identity or expression, ancestry, age, religion, physical or mental disability, physical appearance, socioeconomic status, academic status, order of protection status, homelessness, actual or marital status, parenting status, pregnancy, parenting status, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.

4. Through the transmission of information from a computer that is accessed at a non-school-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school.

Bullying includes cyber-bullying and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student or students in reasonable fear of harm to the student's or students' person or property;
2. Causing a substantially detrimental effect on the student's or students' physical or mental health;
3. Substantially interfering with the student's or students' academic performance; or
4. Substantially interfering with the student's or students' ability to participate in or benefit from the services, activities, or privileges provided by a school.

Cyberbullying means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. Cyberbullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying. Cyberbullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying.

Bullying may take various forms, including without limitation one or more of the following: harassment, threats, intimidation, stalking, physical violence, sexual harassment, sexual violence, theft, public humiliation, destruction of property, or retaliation for asserting or alleging an act of bullying. This list is meant to be illustrative and non-exhaustive.

Students are encouraged to immediately report bullying. A report may be made orally or in writing to the building principal, nondiscrimination coordinator, district complaint manager or any staff member with whom the student is comfortable speaking. All school staff members are available for help with a bully or to make a report about bullying. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the district complaint manager or any staff member. Anonymous reports are also accepted by phone call or in writing.

A reprisal or retaliation against any person who reports an act of bullying is prohibited. A student's act of reprisal or retaliation will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

A student will not be punished for reporting bullying or supplying information, even if the school's investigation concludes that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

Students and parents/guardians are also encouraged to read the following school district policies: 7:20, *Harassment of Students Prohibited* and 7:180, *Prevention of and Response to Bullying, Intimidation and Harassment*.^[1]

Bullying Prevention and Response Plan

The Superintendent or designee shall develop and maintain a bullying prevention and response plan that advances the district's goal of providing all students with a safe learning environment free of bullying and harassment. This plan must be consistent with the following requirements:

1. Using the definition of bullying as provided in this policy, the Superintendent or designee shall emphasize to the school community that: (1) the District prohibits bullying, and (2) all students should conduct themselves with a proper regard for the rights and welfare of other students. This may include a process for commending or acknowledging students for demonstrating appropriate behavior.
2. Bullying is contrary to State law and the policy of this District. However, nothing in the District's bullying prevention and response plan is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the U.S. Constitution or under Section 3 of Article I of the Illinois Constitution.
3. Students are encouraged to immediately report bullying. A report may be made orally or in writing to the Nondiscrimination Coordinator, Building Principal, Assistant Building Principal, school social worker, Complaint Manager, or any staff member with whom the student is comfortable speaking. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the District named officials or any staff member. The term "bullying incident" includes individual instances of bullying, as well as threats, suggestions, or instances of self-harm determined to be a result of bullying. Notification to a parent or guardian shall include, as appropriate, the availability of social work services, counseling, school psychological services, other interventions, and restorative measures.
5. The Superintendent or designee shall promptly investigate and address reports of bullying, by, among other things:

- b. Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.
- c. Notifying the Building Principal or school administrator or designee of the report of the incident of bullying as soon as possible after the report is received.
- d. Consistent with federal and State laws and rules governing student privacy rights, providing parents and guardians of the students who are parties to the investigation information about the investigation and an opportunity to meet with the principal or school administrator or his or her designee to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying.

The principal or designee shall investigate whether a reported act of bullying is within the permissible scope of the District's jurisdiction and shall require that the District provide the victim with information regarding services that are available within the District and community, such as counseling, support services, and other programs.

6. The Superintendent or designee shall use interventions to address bullying, which may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.
7. A reprisal or retaliation against any person who reports an act of bullying is prohibited. A student's act of reprisal or retaliation will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.
8. A student will not be punished for reporting bullying or supplying information, even if the District's investigation concluded that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.
9. The District's bullying prevention and response plan must be based on the engagement of a range of school stakeholders, including students and parents/guardians.
10. The Superintendent or designee shall post this policy on the District's website, if any, and include it in the student handbook, and, where applicable, post it where other policies, rules, and standards of conduct are currently posted. The policy must be distributed annually to parents/guardians, students, and school personnel (including new employees when hired) and must also be provided periodically throughout the school year to students and faculty.
11. The Principal and/or designee shall assist the Superintendent with its evaluation and assessment of this policy's outcomes and effectiveness. This process shall include, without limitation:
 - a. The frequency of victimization;
 - b. Student, staff, and family observations of safety at a school;

 - d. The types of bullying utilized; and
 - e. Bystander intervention or participation.

The evaluation process may use relevant data and information that the District already collects for other purposes. 12. The District's bullying prevention plan must be consistent with other ISBE policies.
13. The Superintendent or designee shall fully inform staff members of the District's goal to prevent students from engaging in bullying and the measures being used to accomplish it. This includes each of the following:
 - a. Communicating the District's expectation and State law requirement that teachers and other certificated or licensed employees maintain discipline.
 - b. Establishing the expectation that staff members: (1) intervene immediately to stop a bullying incident that they witness or immediately contact building security and/or law enforcement if the incident involves a weapon or other illegal activity, (2) report bullying, whether they witness it or not, to an administrator, and (3) inform the administration of locations on school grounds where additional supervision or monitoring may be needed to prevent bullying.
 - c. Where appropriate in the staff development program, providing strategies to staff members to effectively prevent bullying and intervene when it occurs.
 - d. Establishing a process for staff members to fulfill their obligation to report alleged acts of bullying.

Adopted August 2019

Discrimination and Harassment on the Basis of Race, Color, and National Origin Prohibited

Discrimination and harassment on the basis of race, color, or national origin negatively affects a student's ability to learn and an employee's ability to work. Providing an educational and workplace environment free from such discrimination and harassment is an important District and School goal. The District and School do not discriminate on the basis of actual or perceived race, color, or national origin in any of its education programs or activities and comply with federal and State non-discrimination laws.

Examples of Prohibited Conduct

Examples of conduct that may constitute discrimination on the basis of race, color, or national origin include: disciplining students more harshly and frequently because of their race, color, or national origin; denying students access to high-rigor academic courses, extracurricular activities, or other educational opportunities based on their race, color, or national origin; denying language services or other educational opportunities to English learners; and assigning students special education services based on a student's race, color, or national origin.

Harassment is a form of prohibited discrimination. Examples of conduct that may constitute harassment on the basis of race, color, or national origin include: the use of racial, ethnic or ancestral slurs or stereotypes; taunts; name-calling; offensive or derogatory remarks about a person's actual or perceived race, color, or national origin; the display of racially-offensive symbols; racially-motivated physical threats and attacks; or other hateful conduct.

Making a Report or Complaint; Investigation Process

Individuals are encouraged to promptly report claims or incidents of discrimination or harassment based on race, color, or national origin to the Nondiscrimination Coordinator, a Complaint Manager, or any employee with whom the student is comfortable speaking. Reports will be processed under the District's Uniform Grievance Procedure.

Reports and complaints of discrimination or harassment will be confidential to the greatest extent practicable, subject to the District's duty to investigate and maintain an educational environment that is productive, respectful, and free of unlawful discrimination, including harassment.

Federal and State Agencies

If the District fails to take necessary corrective action to stop harassment based on race, color, or national origin, further relief may be available through the Illinois Dept. of Human Rights (IDHR) or the U.S. Dept. of Education's Office for Civil Rights. To contact IDHR, go to:
<https://dhr.illinois.gov/about-us/contact-idhr.html> or call (312) 814-6200 (Chicago) or (217) 785-5100 (Springfield).

Prevention and Response Program

The District maintains a prevention and response program to respond to complaints of discrimination based on race, color, and national origin, including harassment, and retaliation. The program includes procedures for responding to complaints which:

1. Reduce or remove, to the extent practicable, barriers to reporting discrimination, harassment, and retaliation;
2. Permit any person who reports or is the victim of an incident of alleged discrimination, harassment, or retaliation to be accompanied when making a report by a support individual of the person's choice who complies with the District's policies and rules;
3. Permit anonymous reporting, except that an anonymous report may not be the sole basis of any disciplinary action;
4. Offer remedial interventions or take such disciplinary action as may be appropriate on a case-by-case basis;

5. Offer, but do not require or unduly influence, a person who reports or is the victim of an incident of harassment or retaliation the option to resolve allegations directly with the accused; and
6. Protects a person who reports or is the victim of an incident of harassment or retaliation from suffering adverse consequences as a result of a report of, investigation of, or a response to the incident.

Enforcement

Any District employee who is determined, after an investigation, to have engaged in conduct prohibited by this policy will be subject to remedial action and/or disciplinary action, up to and including discharge.

Any District student who is determined, after an investigation, to have engaged in conduct prohibited by this policy will be subject to remedial action and/or disciplinary action, including but not limited to, suspension and expulsion, consistent with the student discipline information in this handbook.

All use of the District's electronic networks shall be consistent with the District's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. These procedures do not attempt to state all required or prohibited behavior by users. However, some specific examples are provided. **The failure of any user to follow these procedures will result in the loss of privileges, disciplinary action, and/or legal action.**

Terms and Conditions

The term electronic networks include all of the district's technology resources, including, but not limited to:

1. The district's local-area and wide-area networks, including wireless networks (Wi-Fi), District-provided Wi-Fi hotspots, and any District servers or other networking infrastructure;
2. Access to the Internet or other online resources via the district's networking infrastructure or to any District-issued online account from any computer or device, regardless of location;
3. District-owned and District-issued computers, laptops, tablets, phones, or similar devices.

Acceptable Use

Access to the District's electronic networks must be: (a) for the purpose of education or research, and be consistent with the district's educational objectives, or (b) for legitimate business use.

Privileges

Use of the District's electronic networks is a privilege, not a right, and inappropriate use may result in a cancellation of those privileges, disciplinary action, and/or appropriate legal action. The system administrator or Building Principal will make all decisions regarding whether or not a user has violated these procedures and may deny, revoke, or suspend access at any time. His or her decision is final.

Unacceptable Use

The user is responsible for his or her actions and activities involving the electronic networks. Some examples of unacceptable uses are:

1. Using the electronic networks for any illegal activity, including violation of copyright or other intellectual property rights or contracts, or transmitting any material in violation of any State or federal law;
2. Using the electronic networks to engage in conduct prohibited by ROE 21 policy;
3. Unauthorized downloading of software or other files, regardless of whether it is copyrighted or scanned for malware;
4. Unauthorized use of personal removable media devices (such as flash or thumb drives);

14. Creating or forwarding chain letters, spam, or other unsolicited messages;
15. Using the electronic networks for commercial or private advertising;

18. Using the electronic networks while access privileges are suspended or revoked.
19. Network Etiquette – The user is expected to abide by the generally accepted rules of network etiquette.

These include, but are not limited to, the following:

1. Be polite. Do not become abusive in messages to others.
2. Use appropriate language. Do not swear, or use vulgarities or any other inappropriate language.
3. Do not reveal personal information, including the addresses or telephone numbers, of students or colleagues.
4. Recognize that the District's electronic networks are not private. People who operate District technology have access to all email and other data. Messages or other evidence relating to or in support of illegal activities may be reported to the authorities.
5. Do not use the networks in any way that would disrupt its use by other users.
6. Consider all communications and information accessible via the electronic networks to be private property.

No Warranties

The District makes no warranties of any kind, whether expressed or implied, for the service it is providing. The District will not be responsible for any damages the user suffers. This includes loss of data resulting from delays, non-deliveries, missed deliveries, or service interruptions caused by its negligence or the user's errors or omissions. Use of any information obtained via the Internet is at the user's own risk. The District specifically denies any responsibility for the accuracy or quality of information obtained through its services.

Indemnification

By using the District's electronic networks, the user agrees to indemnify the District for any losses, costs, or damages, including reasonable attorney fees, incurred by the District relating to, or arising out of, any violation of these procedures.

Security

Network security is a high priority. If the user can identify or suspects a security problem on the network, the user must promptly notify the system administrator or Building Principal. Do not demonstrate the problem to other users. Keep user account(s) and password(s) confidential. Do not use another individual's account without written permission from that individual. Attempts to log-on to the network as a system administrator will result in cancellation of user privileges. Any user identified as a security risk may be denied access to the networks.

Vandalism

Vandalism will result in cancellation of privileges and other disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the Internet, or any other network. This includes, but is not limited to, the uploading or creation of malware, such as viruses and spyware.

Telephone Charges

The District assumes no responsibility for any unauthorized charges or fees, including telephone charges, texting or data use charges, long-distance charges, per-minute surcharges, and/or equipment or line costs.

Filtering, Monitoring, and Review

ECHO and STARQuest, in order to comply with local, state, and federal laws and standards, filters internet content on systems to which students may have access. This filtering removes access to websites and internet servers that have been deemed to have inappropriate content not of an education value. Report any errors found regarding what sites are being, or not being filtered, immediately to an administrator or the technology department. ECHO/SQ reserves the rights to monitor network, email, computer, and telephone use without warning or notice. Information stored, transmitted, or communicated on ECHO/SQ equipment is not to be considered private. Information gained through monitoring may be used as evidence in disciplinary or legal action, at the administrator's discretion. ECHO/SQ retains the right to review current and back-up copies of electronic systems, files, data, communications, and email. Reviews are done without notice, and information gained through review may be used as evidence in disciplinary or legal action should a violation of the Student Acceptable Use of Electronic Networks procedure be discovered.

Copyright Web Publishing Rules

Copyright law and District policy prohibit the re-publishing of text or graphics found on the Internet or on District websites or file servers/cloud storage without explicit written permission.

1. For each re-publication (on a website or file server) of a graphic or a text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the web address of the original source.
2. Students engaged in producing web pages must provide library media specialists with email or hard copy permissions before the web pages are published. Printed evidence of the status of public domain documents must be provided.
3. The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright owner may provide the permission. The manager of the website displaying the material may not be considered a source of permission.
4. The fair use rules governing student reports in classrooms are less stringent and permit limited use of graphics and text.
5. Student work may only be published if there is written permission from both the parent/guardian and student.

Use of Email

The District's email system, and its constituent software, hardware, and data files, are owned and controlled by the District. The District provides email to aid students in fulfilling their duties and responsibilities, and as an education tool.

1. The District reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account's user. Unauthorized access by any student to an email account is strictly prohibited.
2. Each person should use the same degree of care in drafting an email message as would be put into a written memorandum or document. Nothing should be transmitted in an email message that would be inappropriate in a letter or memorandum.
3. Electronic messages transmitted via the District's Internet gateway carry with them an identification of the user's Internet domain. This domain is a registered name and identifies the author as being with the District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the District. Users will be held personally responsible for the content of any and all email messages transmitted to external recipients.
4. Any message received from an unknown sender via the Internet, such as spam or potential phishing emails, should either be immediately deleted or forwarded to the system administrator. Downloading any file attached to any Internet-based message is prohibited unless the user is certain of that message's authenticity and the nature of the file so transmitted.
5. Use of the District's email system constitutes consent to these regulations.

Internet Safety

Internet access is limited to only those acceptable uses as detailed in these procedures. Internet safety is supported if users will not engage in unacceptable uses, as detailed in these procedures, and otherwise follow these procedures.

Staff members will supervise students while students are using District Internet access to ensure that the students abide by the Terms and Conditions for Internet access contained in these procedures.

Each District computer with Internet access has a filtering device that blocks entry to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by the Children's Internet Protection Act and as determined by the Superintendent or designee.

The system administrator and Building Principals shall monitor student Internet access.

Student Authorization for Access to the District's Electronic Networks

ECHO/STARQuest has the ability to enhance your child's education through the use of electronic networks, including the Internet. Our goal in providing this service is to promote educational excellence by facilitating resource sharing, innovation, and communication. Students and their parents/guardians need only sign this Authorization for Access to the District's Electronic Networks once while the student is enrolled.

The district filters access to materials that may be defamatory, inaccurate, offensive, or otherwise inappropriate in the school setting. If a filter has been disabled or malfunctions it is impossible to control all material and a user may discover inappropriate material. Ultimately, parents/guardians are responsible for setting and conveying the standards that their child should follow, and the School District respects each family's right to decide whether or not to authorize Internet access.

With this educational opportunity also comes responsibility. The use of inappropriate material or language, or violation of copyright laws, may result in the loss of the privilege to use this resource. Remember that you are legally responsible for your child's actions. If you agree to allow your child to have a network account, sign the Authorization form below and return it to your school. Below is a copy of the Authorization form.

Authorization for Access to the District's Electronic Networks Form

Students must have a parent/guardian read and agree to the following before being granted unsupervised access:

All use of the electronic networks shall be consistent with the district's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. The failure of any user to follow the terms of the Acceptable Use of the District's Electronic Networks will result in the loss of privileges, disciplinary action, and/or appropriate legal action. The signatures at the end of this document are legally binding and indicate the parties who signed have read the terms and conditions carefully and understand their significance.

I have read this Authorization form. I understand that access is designed for educational purposes and that the district has taken precautions to eliminate controversial material. However, I also recognize it is impossible for the district to restrict access to all controversial and inappropriate materials. I will hold harmless the district, its employees, agents, or Board members, for any harm caused by materials or software obtained via the network. I accept full responsibility for supervision if and when my child's use is not in a school setting. I have discussed the Acceptable Use of the District's Electronic Networks with my child. I hereby request that my child be allowed access to the district's electronic networks, including the Internet.

Annual Notice to Parents about Educational Technology

School districts throughout the State of Illinois contract with different educational technology vendors for beneficial K-12 purposes such as providing personalized learning and innovative educational technologies and increasing efficiency in school operations.

Under Illinois' Student Online Personal Protection Act, or SOPPA (105 ILCS 85/), educational technology vendors and other entities that operate Internet websites, online services, online applications, or mobile applications that are designed, marketed, and primarily used for K-12 school purposes are referred to in SOPPA as operators. SOPPA is intended to ensure that student data collected by operators is protected, and it requires those vendors, as well as school districts and the Ill. State Board of Education, to take a number of actions to protect online student data.

Depending upon the particular educational technology being used, our District may need to collect different types of student data, which is then shared with educational technology vendors through their online sites, services, and/or applications. Under SOPPA, educational technology vendors are prohibited

from selling or renting a student's information or from engaging in targeted advertising using a student's information. Such vendors may only disclose student data for K-12 school purposes and other limited purposes permitted under the law.

In general terms, the types of student data that may be collected and shared include personally identifiable information (PII) about students or information that can be linked to PII about students, such as:

- Basic identifying information, including student or parent/guardian name and student or parent/guardian contact information, username/password, student ID number
- Demographic information
- Enrollment information
- Assessment data, grades, and transcripts
- Attendance and class schedule
- Academic/extracurricular activities
- Special indicators (e.g., disability information, English language learner, free/reduced meals or homeless/foster care status)
- Conduct/behavioral data
- Health information
- Food purchases
- Transportation information
- In-application performance data
- Student-generated work
- Online communications
- Application metadata and application use statistics
- Permanent and temporary school student record information
- Operators may collect and use student data only for K-12 purposes, which are purposes that aid in the administration of school activities, such as:
 - Instruction in the classroom or at home (including remote learning)
 - Administrative activities
 - Collaboration between students, school personnel, and/or parents/guardians
 - Other activities that are for the use and benefit of the school district

SEARCH AND SEIZURE

In order to maintain order safety and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The building principal may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Students

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the school or district's student rules and policies. The search will be conducted in a manner that is reasonably related to its objective of the search and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

Access to Student Social Networking Passwords & Websites

School officials may require a student or parent/guardian to provide a password or other related account information in order to gain access to the student's account or profile on a social networking website if school authorities have reasonable cause to believe that a student's account on social networking website contains evidence that student has violated a school disciplinary rule or procedure.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the school or district's policies or rules, evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, evidence may be transferred to law enforcement authorities.

Questioning of Students Suspected of Committing Criminal Activity

Before a law enforcement officer, school resource officer, or other school security person detains and questions on school grounds a student under 18 years of age who is suspected of committing a criminal act, the building principal or designee will: (a) Notify or attempt to notify the student's parent/guardian and document the time and manner in writing; (b) Make reasonable efforts to ensure the student's parent/guardian is present during questioning or, if they are not present, ensure that a school employee (including, but not limited to, a social worker, psychologist, nurse, guidance counselor, or any other mental health professional) is present during the questioning; and (c) If practicable, make reasonable efforts to ensure that a law enforcement officer trained in promoting safe interactions and communications with youth is present during the questioning.

EDUCATION OF CHILDREN WITH DISABILITIES

(Updated: November 2021)

It is the intent of the district to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act are identified, evaluated and provided with appropriate educational services.

ECHO/STARQuest Academy provides a free appropriate public education in the least restrictive environment and necessary related services to all children with disabilities enrolled in the school. The term “children with disabilities” means children between ages 3 and the day before their 22nd birthday for whom it is determined that special education services are needed, except those children with disabilities who turn 22 years of age during the school year are eligible for special education services through the end of the school year. It is the intent of the school to ensure that students with disabilities are identified, evaluated, and provided with appropriate educational services.

A copy of the publication “Explanation of Procedural Safeguards Available to Parents of Students with Disabilities” may be obtained from the home school district office.

Students with disabilities who do not qualify for an individualized education program, as required by the federal Individuals with Disabilities Education Act and implementing provisions of this Illinois law, may qualify for services under Section 504 of the federal Rehabilitation Act of 1973 if the student (i) has a physical or mental impairment that substantially limits one or more major life activities, (ii) has a record of a physical or mental impairment, or (iii) is regarded as having a physical or mental impairment.

For further information, please contact your home school district administrative office.

Surveys by Third Parties

Before a school official or staff member administers or distributes a survey or evaluation created by a third party to a student, the student's parent/guardian may inspect the survey or evaluation, upon their request and within a reasonable time of their request. This applies to every survey: (1) that is created by a person or entity other than a district official, staff member, or student, (2) regardless of whether the student answering the questions can be identified, and (3) regardless of the subject matter of the questions. Parents who object to disclosure of information concerning their child to a third party may do so in writing to the building principal.

Student Records

(Updated November 2021)

A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction or by a school employee, regardless of how or where the information is stored, except for certain records kept in a staff member's sole possession; records maintained by law enforcement officers working in the school; video and other electronic recordings (including electronic recordings made on school busses) that are created in part for law enforcement, security, or safety reasons or purposes, though such electronic recordings may become a student record if the content is used for disciplinary or special education purposes regarding a particular student.

The Family Educational Rights and Privacy Act (FERPA) and the Illinois Student Records Act afford parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's school records. They are:

1. The right to inspect and copy the student's education records within 10 business days of the day the District receives a request for access.
 - a. The degree of access a student has to his or her records depends on the student's age. Students less than 18 years of age have the right to inspect and copy only their permanent record. Students 18 years of age or older have access and copy rights to both

permanent and temporary records. A parent/guardian or student should submit to the building principal a written request that identifies the record(s) he or she wishes to inspect. Within 10 business days, the building principal will make arrangements for access and notify the parent/guardian or student of the time and place where the records may be inspected. In certain circumstances, the District may request an additional 5 business days in which to grant access. The District charges \$.35 per page for copying but no one will be denied their right to copies of their records for inability to pay this cost. These rights are denied to any person against whom an order of protection has been entered concerning the student.

2. The right to have one or more scores received on college entrance examinations included on the student's academic transcript.
 - a. Parents/guardians or eligible students may have one or more scores on college entrance examinations included on the student's academic transcript. The District will include scores on college entrance examinations upon the written request of the parent/guardian or eligible student stating the name of each college entrance examination that is the subject of the request and the dates of the scores that are to be included.
3. The right to request the amendment of the student's education records that the parent/ guardian or eligible student believes are inaccurate, irrelevant, or improper.
 - a. A parent/guardian or eligible student may ask the District to amend a record that is believed to be inaccurate, irrelevant, or improper. Requests should be sent to the building principal and should clearly identify the record the parent/guardian or eligible student wants changed and the specific reason a change is being sought. If the District decides not to amend the record, the District will notify the parent/guardian or eligible student of the decision and advise him or her of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian or eligible student when notified of the right to a hearing.
4. The right to permit disclosure of personally identifiable information contained in the student's education records, except to the extent that the FERPA or Illinois School Student Records Act authorizes disclosure without consent.
 - a. Disclosure without consent is permitted to school officials with legitimate educational or administrative interests. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board. A school official may also include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of personally identifiable information from education records (such as an attorney, auditor, medical consultant, therapist, or educational technology vendor); or any parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility or contractual obligation with the district. Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law. Before information is released to these individuals, the parents/guardians or eligible student will receive prior written notice of the

nature and substance of the information, and an opportunity to inspect, copy, and challenge such records.

Academic grades and references to expulsions or out-of-school suspensions cannot be challenged at the time a student's records are being forwarded to another school to which the student is transferring.

Disclosure is also permitted without consent to: any person for research, statistical reporting or planning, provided that no student or parent/guardian can be identified; to another school district that overlaps attendance boundaries with the District, if the District has entered into an intergovernmental agreement that allows for sharing of student records and information with the other district, any person named in a court order; appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons; and juvenile authorities when necessary for the discharge of their official duties who request information before adjudication of the student.

5. The right to a copy of any school student record proposed to be destroyed or deleted.
 - a. The permanent record is maintained for at least 60 years after the student transfers, graduates, or permanently withdraws. The temporary record is maintained for at least 5 years after the student transfers, graduates, or permanently withdraws. Temporary records that may be of assistance to a student with a disability who graduates or permanently withdraws, may, after 5 years, be transferred to the parent/guardian or to the student, if the student has succeeded to the rights of the parent/guardian. Student temporary records are reviewed every 4 years or upon a student's change in attendance centers, whichever occurs first.
6. The right to prohibit the release of directory information.
 - a. Throughout the school year, the District may release directory information regarding students, limited to:
 - i. Name
 - ii. Address
 - iii. Grade level
 - iv. Birth date and place
 - v. Parent/guardian names, addresses, electronic mail addresses, and telephone numbers
 - vi. Photographs, videos, or digital images used for informational or news-related purposes (whether by a media outlet or by the school) of a student participating in school or school-sponsored activities, organizations, and athletics that have appeared in school publications, such as yearbooks, newspapers, or sporting or fine arts programs
 - vii. Academic awards, degrees, and honors
 - viii. Information in relation to school-sponsored activities, organizations, and athletics
 - ix. Major field of study
 - x. Period of attendance in school - Any parent/guardian or eligible student may prohibit the release of any or all of the above information by delivering a written objection to the building principal within 30 days of the date of this notice.
7. The right to request that military recruiters or institutions of higher learning not be granted access to your student's information without your prior written consent.
 - a. Federal law requires a secondary school to grant military recruiters and institutions of higher learning, upon their request, access to secondary school students' names, addresses, and telephone numbers, unless the student's parent/guardian, or student who is 18 years of age or older, submits a written request that the information not be released

without the prior written consent of the parent/guardian or eligible student. If you wish to exercise this option, notify the building principal.

8. The right contained in this statement: No person may condition the granting or withholding of any right, privilege or benefits or make as a condition of employment, credit, or insurance the securing by any individual of any information from a student's temporary record which such individual may obtain through the exercise of any right secured under State law.
9. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the district to comply with the requirements of FERPA.

School Operations During a Pandemic or Other Health Emergency

A pandemic is a global outbreak of disease. Pandemics happen when a new virus emerges to infect individuals and, because there is little to no pre-existing immunity against the new virus, it spreads sustainably. Your child's school and district play an essential role, along with the local health department and emergency management agencies, in protecting the public's health and safety during a pandemic or other health emergency.

During a pandemic or other health emergency, you will be notified in a timely manner of all changes to the school environment and schedule that impact your child. Please be assured that even if school is not physically in session, it is the goal of the school and district to provide your child with the best educational opportunities possible.

Additionally, please note the following:

1. All decisions regarding changes to the school environment and schedule, including a possible interruption of in-person learning, will be made by the superintendent in consultation with and, if necessary, at the direction of the Governor, Illinois Department of Public Health, local health department, emergency management agencies, and/or Regional Office of Education.
2. Available learning opportunities may include remote and/or blended learning. Blended learning may require your child to attend school on a modified schedule.

3. Students will be expected to participate in blended and remote instruction as required by the school and district. Parents are responsible for assuring the participation of their child. Students who do not participate in blended or remote learning will be considered truant.
4. All school disciplinary rules remain in effect during the interruption of in-person learning. Students are subject to discipline for disrupting the remote learning environment to the same extent that discipline would be imposed for disruption of the traditional classroom.
5. Students and parents will be required to observe all public health and safety measures implemented by the school and district in conjunction with state and local requirements.
6. During a pandemic or other health emergency, the school and district will ensure that educational opportunities are available to all students.

8. Students who have a compromised immune system, live with an individual with a compromised immune system, or have a medical condition that may impact their ability to attend school during a pandemic or other public health emergency should contact school officials.
9. During a pandemic or other health emergency, teachers and school staff will receive additional training on health and safety measures.
10. In accordance with school district or state mandates, the school may need to conduct a daily health assessment of your child. Parents and students will be notified of the exact assessment procedures if this becomes necessary.
11. Parents should not send their child to school if their child exhibits any symptoms consistent with the pandemic or other health emergency.
12. Please do not hesitate to contact school or district officials if you have any concerns regarding your child's education, health or safety.
